My lyrics for Coldplay We Pray Song :
I pray that hope will
Protect us from our desepear
I pray count on you
Let me get your help
Face all the challenges every days
From morning to night every years
Pray I – I – I speak my joy
Repeat my beating heart
One of us parted road (ah yeah)
Two of us come with angels (ah yeah)
All of us shared world (ah yeah)
And journey all world (ah yeah)
Pray that we talk inside head
And that we known how to be courteous
Pray when she prays with Jesus
We need God
We need angel

I pray that present will
Run us from our dark past
I pray don't lose you
Let go for the future
Destroy all the past
With the storms we faced every day
Pray I – I – I speak my choice
And listen my time turn
Past the ones who left memories (ah yeah)
Future the ones who’s moving forward (ah yeah)
Past the ones who shared stories (ah yeah)
Next we take each step (ah yeah)
When the past is beyond our control
That why we call present
She prays light out for tomorrow
Wee run or learn for a past

I pray that courage will
Defend us from our prejudices
Oh I pray count on you
I want to find peace beyond despair
During the turns we've taken since the beginning
Pray I – I – I choice my fate
And look my heroes save
One heroes who known tragedy (ah yeah)

Others heroes who’s save the world (ah yeah)
Someone who’ve sacrified for the world (ah yeah)
We find strength in everything (ah yeah)
Responsibility is a power
This we remember who we are
She's ready for final boss

I pray that self will
Protect me from others
I promise never giving up
Myself is in my control
With the potential I got since birth
And I feel my conscience
Pray for choice I make
Firstly who will help me (ah yeah)
Secondly who will following me (ah yeah)
Thirdly who will confront me (ah yeah)
I come back again and again (ah yeah)
Pray that my voice is strong
And that I know why i'm here
Pray when I pray in front the mirror
I am me
And now ?

I pray that music will
Get away for anxiety
Wanna sing with somebody
Experience a song
All sensations that we feel
Every sounds in our minds
Pray I – I – I sing my voice
Giving my song eternal
Actors who created stars (ah yeah)
Musicians imagined rhythm (ah yeah)
Orchestra vibrated universe (ah yeah)
Maked to danse with somebody (ah yeah)
We sing with a microphone
And remember our prayer
Sing and pray in the concert
Ready to sing,
Reayd to pray

I pray that hope will
Protect us from despair
I pray count on you
Let me get your help
Face all the challenges every days
From morning to night all years
Pray I – I – I speak my joy
Repeat my beating heart
One of us parted road
Two of us come with angels
All of us shared world
And journey all world
Pray that we wish what gift
We'll flying in the sky
Pray when she prays for heaven
We need God
We need angel
